# & Collab Solutions

Complete Communications can help manage Collaboration Solutions from the carrier services component. Complete represents almost every carrier globally and has an agnostic point of view to best meet your customer's individual needs. Complete has proprietary tools that can help find fiber availability, DID availability, toll free mapping and they also project manage all installs.

- Proprietary technology helping to determine which carriers are available and can service each location
- Quick turnaround on quoting to create budget and ROI
- Domestic and international carrier solutions
- Complete management of the entire solution; from quoting to installation, to day 2 support
- 24/7 NOC available to proactively monitor and open up trouble tickets with the carriers
- Ability to quote multiple carrier options for Collab services
